

## Botnia - Tar Fish 750

£ 76,950

### Description

Www.justfishingboats.co.uk Botnia Tarfish 750. This is a very rare and unique boat. Originally built in Finland to their exacting standards and then stripped and rebuilt by us in 2021. The difference between the standard Targa model and a Tarfish is the larger rear deck area. You get more rear space, a rear door from the cabin, two large deck lockers and a small hand sink with fresh water tap. She was purchased just before the pandemic and rebuilt to the highest possible standards over a two year period. The list of works is just too long to print, but a comprehensive file and survey on completion is available. She was stripped to the bare hull and rebuilt at a cost of over £40000. This would be £60000 know. The roof was stripped and re gel coated. All bespoke stainless steel rod holders etc are new. The engine is a 2004 Volvo Penta KAD 43 235hp and was fitted with a new 2021 duo prop outdrive. She cruises through any weather at 20 knots and tops out around 30 knots. The interior is bespoke and finished by a professional cabinet maker in Teak. She was completely re wired with all the best Blue Sea components and finished with three Rolls battery's. The electronics include a Twin Raymarine Axiom Pro's 12 and 10 inch, including AIS, Doppler radar, Twin 3D transducers, Active radar reflector, Fusion stereo system, Powerful Remote search/spot light, Twin pantographic wipers, Front and rear deck lights, dual batteries for engine and isolators, shore power with wi fi battery chargers. Specification includes Bow Thruster and electric winch with 450 ft of chain and rope. Inside the insulated cabin you get Makuni diesel heating, Twin suspension seats, Sink with cold water, single gas burner with pan clamps, full sea toilet below the floor!! Outside you have a full walk around ring deck. Lots of front storage lockers. The best electric winch you will ever use, with 450ft of anchor chain and rope. This never jams and comes with the biggest anchor locker you will ever see on a boat of this size. All the decks have been fitted with Tek Deck grey non slip surface. All the outside rail are new and made from solid teak. Rear swim platform comes with cool box and frame (can be removed) and bathing ladder. A large bait station if fitted to the teak rear rail, again this can be removed. Full service carried out recently. All new belts, oils and filters. You will never go in another boat of this size that handles the sea like this does. More pictures and video available on request.
